

TO WHOM IT MAY CONCERN:

Attached to this letter is a combination informational sheet/order form for Rapid Entry Supra Key Boxes. The Sheboygan Fire Department recommends these key boxes to business and property owners as they provide firefighters with a quick and non-destructive means of entry into a structure in the event of a fire or medical emergency. The key boxes are available in various sizes as shown on the order form and are a product of Supra Products. Some models of Supra Safe boxes are equipped to connect into a security system.

After installation, the Sheboygan Fire Department carries the **only** master keys for your box. The size of the box for your building is your decision and should be based on the number of keys you intend to keep in the box for access to your building and locked areas within. Our suggested mounting location for the box is at the main entrance door. When your key box has been installed, contact the Sheboygan Fire Department office at 459-3327 to arrange to have the keys locked in the key box.

An optional use for the key box after installation would be to grant the fire department permission to use the keys when conducting fire inspections required by state law. Use of the box for this purpose would be with your permission, and **only** to complete required inspections.

Thank you for your concern.

Sincerely,

Robert Kocmoud  
Battalion Chief

# Rapid Entry System

Instant fire department access without damaging the door or building

The Rapid Entry System is designed to help fire departments and businesses work together to preserve lives and property. It eliminates the need for fire department officials to maintain and carry cumbersome key rings with hundreds of building keys.

## Here's how the Rapid Entry System works:

1. The building owner purchases the Lock Box of his choice and mounts it securely near the entrance. Fire department officials lock the building keys in the Lock Box.
2. To ensure absolute security, Kidde has developed a flexible program for shipping Lock Boxes directly to building owners. Special security keys are supplied only to authorized fire department officials.
3. When a fire alarm sounds at night or on the weekend, the fire department has instant access to the building. Access is fast, easy and safe without the need for the building owner or tenant to drive to the site after hours.

## Kidde — a name you can trust:

**Safe and secure.** Keys that open the Lock Boxes are provided exclusively by Kidde. Our SupraSafe 2 High Security units are UL certified antitheft devices. All SupraSafes are steel construction with locking systems designed to withstand attack. Optional tamper switches can be integrated with a building's alarm system.

**The SupraSafe line** offers a variety of sizes, styles and features. Building owners can custom-tailor a Rapid Entry System to meet their needs.

**Toll-free product support.** You have the resources of the world's largest lock box manufacturer and the backing of Kidde.

**Help make it safer for the fire department** to protect property and reduce injuries; avoid the expense of replacing a costly door or window due to unnecessary forced entry.

Costly damage of forced entry is eliminated when building keys are stored securely near entrances.

For more information call 800-654-9677 x 8365

## Rapid Entry System Order Form

**This form must be filled out completely or your order will be delayed.**

1. Orders must be prepaid.
2. Fill in your billing and shipping address.
3. Contact your fire department for their system code.
4. Submit order via: Fax: 800.547.2111  
Email: [alejandra.gatica@kiddes.com](mailto:alejandra.gatica@kiddes.com)  
Mail: Kidde Safety, 1016 Corporate Park Drive, Mebane, NC 27302

All Kidde Safes come with black polyester textured powder paint, wall anchors and bolts. Optional through-wall mounting kits are recommended for non-recessed units for higher security.		QTY.	PRICE	TOTAL
